## Scramble Rules

In 2008 I created my own 4-man rule book. Here are the rules:

1. You should check in with the referee 15 mins to 10 mins before the start of the first whistle.
2. You will be assigned a number and you must remember your number for the entire event.
3. There is no "open hand" tipping.
4. There is no centerline so players can cross underneath the net as long as they do not interfere with their opponent.
5. There is no back row player. This means everyone can hit inside the 10ft line.
6. You do not need to rotate. Play fixed position or rotate as you please. However, you must maintain service order.
7. It's block plus three.
8. There are no time outs.
9. You cannot "hand set" over the net, even if you are square, even if it's a push, even if you didn't mean too.
10. Since points matter and determine your prizes, all games will be played to 21 points. The first team to reach 21 points wins. There is no "win by two".
11. All other USAV rules apply if not contradicted by a rule stated above.

Scrambles are a 4-man format where individual players play with different players against different players for eight straight games. Player's points are accumulated over the series and prizes are given out based on points at the last Scramble in the series. It is played on a men's height net and both men and women are welcome to play.
